

RIBBLE VALLEY SUB AQUA CLUB

NORWAY 2015

20TH - 27TH JUNE 2015 ON mvHALTON

We have chartered mvHalton for this exciting trip and all twelve slots were quickly snapped up. However, sadly two of our members have had to cancel and their places are up for resale.

The normal cost of a single place is £1,200 but these places are available at £1,000 each

Here is a summary of the trip:

- We join and leave the boat in Bergen
- The furthest north will be Florø at 61° 35' 58" N, 5° 1' 58" E
- This is essentially a wreck diving trip although there is plenty of marine life around the wrecks
- Depths generally 20m – 45m
- Minimum diver grade – BSAC Sports Diver or equivalent
- Halton will be alongside each night. Actual ports will depend on weather, our wishes, mood of skipper &c.
- Follow the links below for more information

The price includes six days diving, accommodation on board, all meals, tanks, weights and air fills. Nitrox, trimix, and O₂ are chargeable. Singles, manifolded twins and stages are available, as are CCR cylinders and softnolime.

The boat will pick us up in, and return us to, Bergen. I am arranging transfers from / to Bergen airport for which there will be a small extra cost. Transport from the UK and back is obviously not included in the price. It may be possible to transfer flights already booked by the cancelling pair.

Please get in touch if you need further information.
